

PROTECT

The Offices of TECHNOLOGY MANAGEMENT

(OTMS) **evaluate, protect,
market, and license
intellectual property**

generated by research and
educational activities at
the University of Illinois.

The OTMs manage the
very first function in
the innovation pipeline
and play a critical role
in helping faculty and
students move their
ideas from the lab to
the marketplace.

FY2013 TOP ROYALTY GENERATING TECHNOLOGIES

CHICAGO

- **Prezista** (HIV-AIDS treatment drug)
- **TICE BCG** (bladder cancer treatment and prevention drug)
- **Intensified Algebra** (mathematical program for at-risk high school students)

URBANA

- **Native Oxide** (semiconductor technology)
- **Soft Red Winter Wheat** (wheat lines produced on farms in the Eastern U.S.)
- **Data Mining for Source Code Analysis** (software suite that identifies and removes defects in source code)

TECH TRANSFER PROCESS

Researcher
discloses
invention to OTM

OTM completes
screening evaluation
and recommends
course of action on
commercialization

OTM markets
technology to
potential partners

University licenses
technology to
existing or startup
company for use in
the marketplace

U of I innovations
drive economic
growth and have
societal impact

TECH TRANSFER PROCESS NOTES

- For technologies the OTMs choose to patent, a separate patent strategy is identified.
- Other common ways of transferring University IP include academic and research-use, creative commons, and open sources licenses.
